Pride of Wireless Microphone! "Digitalcom"

DMK710/910 Series

- ❑ Cellular phone battery charging using USB Cable
- ❑ Interference Protection (Patent)
- ❑ Ease to manipulate due to being Receiver and Charger into one united body
- ❑ Helical antenna inside
- ❑ Ease to install channels (setting channels of Transmitter and Receiver at once)
- ❑ Be convenient to replace MIC unit
- ❑ Includes a safeguard for battery
- ❑ Operating in the Frequencies of 700Mhz/900Mhz
- ❑ Up to 58/34 Channels selectable with PLL-synthesized

DMK710/910 Series

More~

- ✓ Easy Control!
- ✓ Durability!
- ✓ Low Price!

Specifications

DMK710T / DMK910T (Transmitter)

ITEM	DENOMINATION	STANDARD
Frequency range	MHz	740~752 / 925~932
RF output power	mW	MAX,10
No. of channel	CH.	58 / 34
Channel spacing	KHz	200
Band width	KHz	200
Peak deviation	KHz	±50
Modulation		FM
Frequency stability	PPM	±15
Oscillating method		PPL
Current consumption	mA	MAX,60(at 3.6V)
Antenna		λ / 4 Helical
Power		3,6V Battery Pack

DMK710RC / DMK910RC (Receiver/Charger)

ITEM	DENOMINATION	STANDARD
Frequency range	MHz	740~752 / 925~932
Sensitivity	dBm	MIN,-93(at SINAD 40dB)
S/N	dB	MIN,80
Audio out	Vp-p	1,3V(1KHz, Δf : ±50KHz)
Noise rejection		Using Componder 1,C
Channel spacing	KHz	200
Band width	KHz	200
Frequency stability	PPM	±15
Oscillating method		PPL
Current consumption	mA	MAX,300/2CH
Antenna		λ / 4 Helical
Power		DC 12V 1A

Good Quality & Price!
